

## Stress Ball

### PRODUCT DESCRIPTION:

The round ball shaped squeezable stress reliever is a popular and effective tool for managing stress and anxiety. Made from soft polyurethane, this stress ball offers both a tactile and visual sensory experience. Whether at home, in the office, or even on the go, this stress ball can be easily carried, ready to be used whenever a moment of relief is needed. Its compact size and lightweight nature make it a convenient accessory for stress management on the fly.
